A Single-Family Dwelling Unit is a detached building containing but one kitchen, designed for and occupied exclusively by one family and the household employees of that family.

A Dwelling Unit is defined as a building or portion thereof providing complete housekeeping facilities for one family.

A Duplex is a building that contains two (2) one-family dwellings attached by a common wall and designed to be occupied by two families living independently of each other.

A Multi-Family Structure means a building designed to house three or more families living independently of each other attached by common walls.

Restricting a residential group to those individuals that are defined as senior citizens means that an applicant shall file with the Skagit County Auditor a covenant that will run with the land that restricts the age of the occupants within a dwelling unit. The age restriction shall be no younger than 62.

Congregate Care Facilities and Nursing Homes are licensed facilities that provide constant nursing care of elderly or disabled individuals who do not require hospitalization, but who cannot be cared for at home.

Assisted Living Facilities are used by individuals living separately from others, in a structure designed for the needs of elderly people. These establishments provide services such as the supervision and care by supportive staff as may be necessary to meet the physical, emotional, and social needs of an elderly person. This generally includes the provision of personal care, supervision of self-administered medication, limited health facilities, communal dining facilities and services such as housekeeping, organized social and recreational activities and transportation services.

Having any of the residential groups condominimized shall have no bearing on how the structure is defined. The number of dwelling units and whether or not they are attached by common walls shall be the bases in defining the residential groups.

Commercial and Industrial Groups include all uses not specifically listed within the Residential Group, excluding public and private schools. Commercial and Industrial Groups include, but are not limited to: all commercial, retail, office, industrial, church, governmental, healthcare facilities, hotels and bed and breakfasts, recreational facilities, banks, and eating and drinking establishments.

Impact fees shall be adjusted each January to provide for inflation. The Engineering News Record Construction Cost index for 20 cities shall be used.
