

Residential Sewer Billing:

Sewer billings are based on the water usage data that PUD supplies to the City of Mount Vernon. PUD supplies this data to the City every other month and it is for a two month period. The following chart shows what water bill the City's sewer bill is based on:

Residential Sewer Billing Map		
Consumption Billing		
Usage Period	Receive PUD data	City Billing Period
Nov/Dec	Late January	February/March
Jan/Feb	Late March	April/May
Mar/Apr	Late May	June/July

Because "summer" usage will include irrigation and non-sewer water usage the following will become the "Winter Average Billing"

Wintertime Average Billing		
Usage Period	Receive PUD data	City Billing Period
May thru Sept. Average Created Using Nov to Feb usage	Imported but only used if lower than WTA	August to Jan
