

Organics Recycling

Cedar Grove is an industry-leading, local, family owned hauler & compost processor, operating in the Puget Sound region since 1938.

We specialize in working with businesses to help establish sustainable composting programs - aimed at saving you money!

Our representatives work with you to divert your organic waste and reduce your garbage with a customized composting program. We work closely with your staff to develop custom trainings, signage, and education to ensure your program has the best possible start.

Benefits to working with Cedar Grove

- Personalized service plans
- Cost Effective Solutions
- Dedicated Account Manager
- Free Training & Educational Materials
- Access to Wholesale Discounts on Soil, Packaging, & More!

Our Services Include:

Site Assessment. A Cedar Grove representative will evaluate your needs and current service to recommend the program options best suited for your business and waste setup.

Proposal. A proposal with our recommendations for services and products will be provided for your review on approval.

Training & Materials. Cedar Grove will come to your place of business as often as needed to properly educate employees about the program at NO cost to you. We provide custom signs, stickers, and materials with your account.
